

K-Love is a radio station that I listen to frequently. I listen to K-love almost on a daily basis, because of the positive, encouraging message it sends to me and my family. If I could not hear K-love any longer because of the LPFM then I would be very disappointed and would not have a radio station that I would want to listen to. K-love's broadcast belongs on the radio because of the significant message it sends to its listeners. I have heard how many lives it changes too! Please seriously consider to not put LPFM as a priority over current FM translator service. Thank you.
